

Background Bokeh Effects VFX for URP

Thank you for purchasing Background Bokeh Effects VFX for URP – a premium pack of visual effects designed to enhance the background of your Unity projects with beautiful, soft-focus bokeh and glowing particle effects.

Package Contents

1. 40 Prefab Background Effects

Carefully crafted combinations of camera and particle systems.

2. 3 Custom Shaders

Designed for high-performance emissive, blinking, and gradient visuals in URP.

3. Sample Scene

A pre-built scene showcasing all effects in action.

4. 18 Textures

Optimized textures for particles (from 256x256 to 512x512).

5. 3 Meshes

Used across various effects for optimal rendering and shape variation.

Getting Started

Using the effects is fast and easy:

1. Open the Sample Scene to preview all available effects.
2. To use an effect in your scene:
3. Drag any effect prefab from the package into your scene.
4. Each effect includes its own camera – make sure to remove any other active cameras in your scene to avoid conflicts.
5. Hit Play and enjoy the results.

Shader Guide

MM/EMMISIVEPARTICLEUNLIT

This lightweight unlit shader is perfect for glowing particles.

Usage:

- Assign a texture to **_MainTex**.
- Control glow intensity via **_EmissionStrength** (1–10).

Best for: Soft glows, fireflies, or ambient particle lights.

MM/EMMISIVEBLINKINGPARTICLEUNLIT

Adds a pulsating blink to particles, with per-particle phase randomness.

Properties:

- **_MainTex**: Particle texture.
- **_EmissionStrength**: Glow brightness.
- **_BlinkSpeed**: Blink frequency (0–20).

Notes:

- Each particle blinks independently thanks to seeded randomization.

- Set `_BlinkSpeed` to 0 for a steady glow.

Best for: Magical effects, flickering fireflies, sci-fi pulses.

MM/BACKGROUNDGRADIENT

Creates a smooth vertical gradient ideal for backgrounds.

Properties:

- **_TopColor**: Color at the top.
- **_BottomColor**: Color at the base.
- **_Midpoint**: Gradient center point.
- **_Smoothness**: Transition softness (0.01–1).

Best for: Atmospheric backdrops, sky gradients, or stylized UI backgrounds.

Support & Feedback

If you enjoy this asset, please consider leaving a review on the Unity Asset Store – your support helps us keep making awesome VFX tools!
